

Neorecording

The professional voice recording
that you can rely on.

The new freedom in business communications.

NFON
Cloud Telephone System

Future-proof for MiFID II Compliance.

Neorecording integrates the field-proven, technically-mature solution from the market leader, ASC Technologies into Cloudya, the cloud telephone system from NFON. Neorecording offers comprehensive functionality to support call recording and storage. Neorecording enables organisations of any size to comply with EU legislation, avoid sanctions, reduce costs and explore additional areas of business. With Cloudya and Neorecording, your organisation has peace-of-mind.

- ▶ MiFID II-compliant recordings to meet reporting and execution directives
- ▶ Encryptions that meet the highest data security levels
- ▶ Storage of all ancillary information
- ▶ Fault-tolerant cloud solution offers maximum scalability
- ▶ Reliable, scalable and secure cloud technology made in Germany

Compliance with EU Law and Reduction of Costs.

Neorecording offers financial, legal, and insurance service providers a comprehensive solution for diligent documentation, as required by the EU directive MiFID II. Experienced NFON specialists are able to customise Neorecording to meet specific requirements, reducing costs and helping organisations quickly embrace and comply with MiFID II legal regulations.

Regulation Proof. Fail Proof. Future Proof.

Neorecording makes it easy to conform to the most demanding compliance regulations. The solution comprises all you need to safely record and store all calls and other customer interactions conducted over voice. Every call is captured as an audio recording, encrypted in a manipulation-proof manner, and stored in secure inland data centers.

Web-based Cloud Service with Full Flexibility.

Using Neorecording with Cloudya requires no additional hardware or software, and the user-friendly web client can be easily installed on all licensed devices. Neorecording provides you with all the freedom, scalability and efficiency of a full-featured cloud service.

Meet MiFID II Regulations with Neorecording

- **Reduce Risks**
Fulfills recording and storage requirements, and protects the organisation from possible sanctions
- **Maintain Efficiency**
Integrates quickly and automates recording processes without affecting day-to-day operations

Benefit from NFON Cloud Services

- Fast integration with existing systems without special hardware/software requirements
- Effortless, just-in-time scalability to meet demand
- Increased reliability and data security due to high-availability data centers
- Transparent, predictable operating costs with pay-per-use pricing

About NFON AG.

Headquartered in Munich, NFON AG is the only pan-European cloud PBX provider – counting more than 15,000 companies across 13 European countries as customers. With Cloudya, NFON offers an easy-to-use, independent and reliable solution for advanced cloud business communications. Further premium and industry solutions complete the portfolio in the field of cloud communications. With our intuitive communications solutions, we enable European companies to improve their work a little, every single day. NFON is the new freedom in business communications.
