

Nvoice for Skype for Business

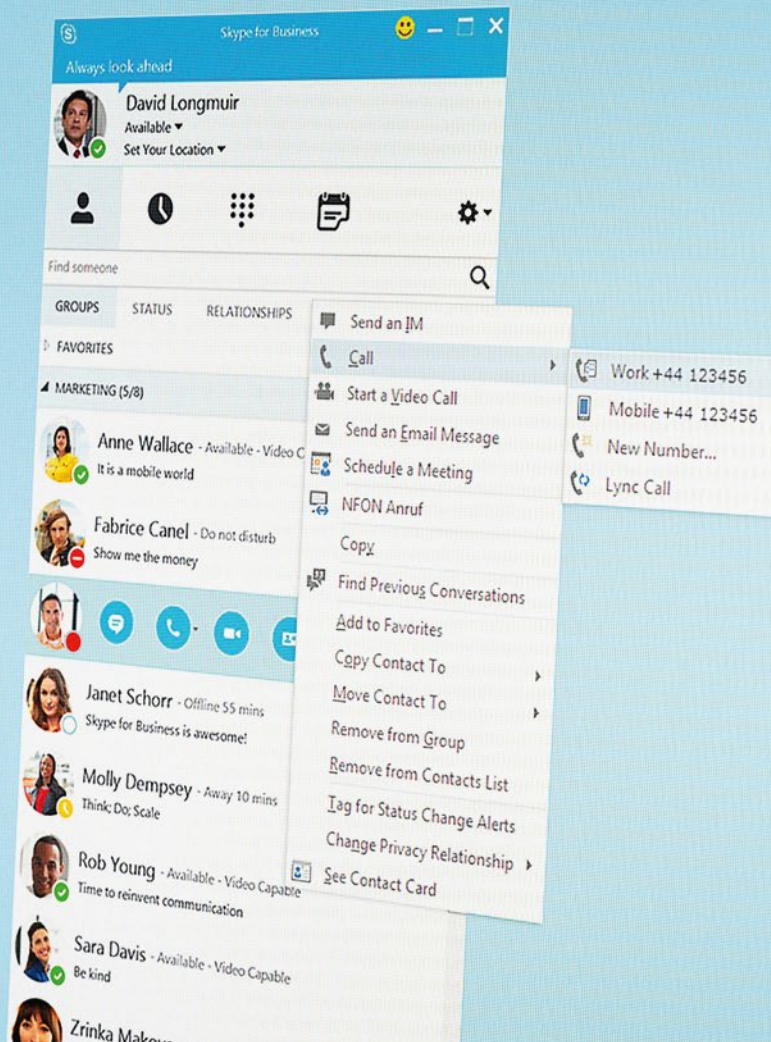

The seamless integration of Unified Communication in a cloud telephone system.

The new freedom in business communications.

NFON
Cloud Telephone System

The connection of two worlds – for the very best in communication.

Nvoice for Skype for Business.

- Skype for Business Solution added-values: Presence, Chat and Video Conferencing
- Connected to the public phone network (PSTN)
- NFON extends Skype for Business with the full functionality of an enterprise telephone system
- No expensive hardware investments necessary
- Maximum tariff flexibility per employee

Take your communication to a new level. With the combination of one of the most modern unified communication solutions and the NFON telephone system. We've implemented Skype for Business as device to our telephone system, of course flexible and on a monthly base.

No expensive investments and no need to run your own Skype for Business Server.

We run the Skype for Business Server and telephone system for you in ultramodern, geo-redundant, secure data centres. We take care of server updates and maintenance at no additional cost to you. All you need is an adequate Internet connection and we do the rest.

Microsoft Skype for Business Solution for the Nfon telephone system.

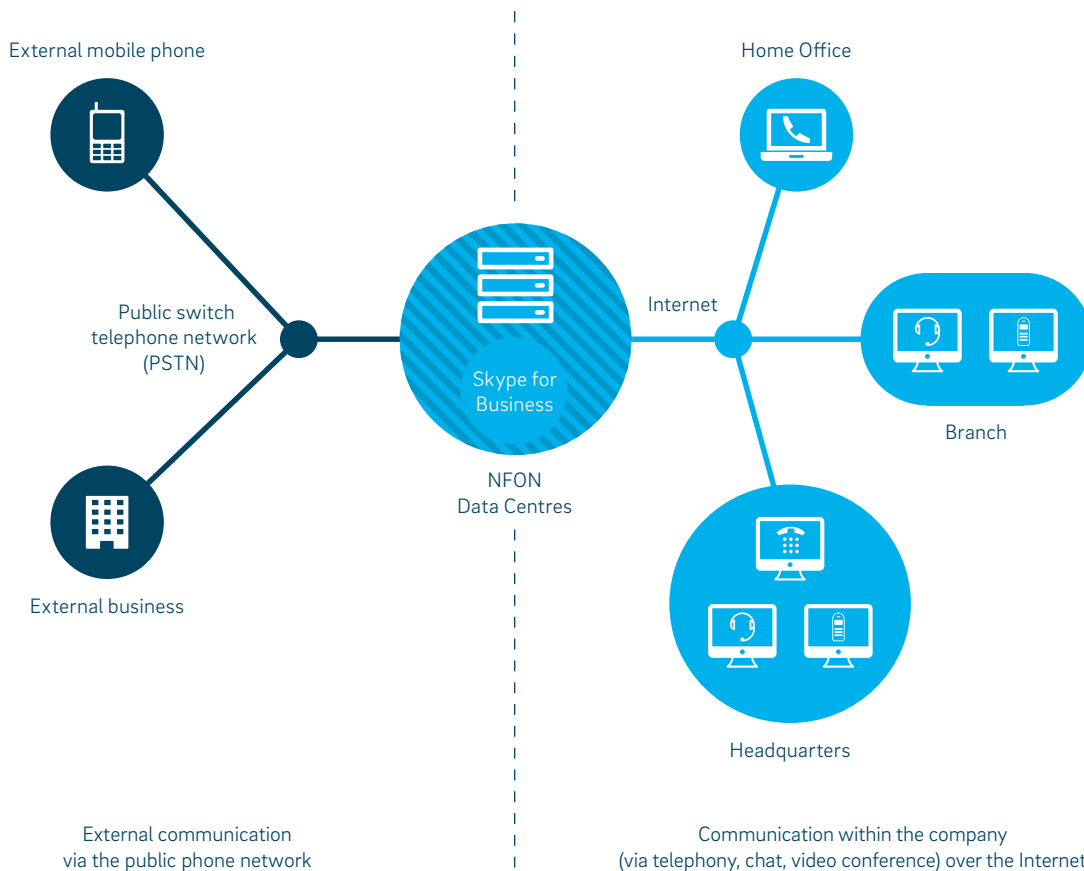

Your chosen employees use the familiar Skype for Business user interface but now benefit from UCC functions such as presence, chat and video conferencing. Nvoice for Skype for Business also has all of the standard features of a traditional telephone system, such as external telephony, call routing (ACD) and queuing. This allows Skype for Business participants to be, for example, part of a group or queue.

Flexible usage per employee – scale as required.

You can select Nvoice for Skype for Business tariffs for your individual employees. In addition to the usual desk with a telephone, this allows you to also make modern unified communications workstations available or you can simply combine both in every workplace. Billing is completely transparent and booked monthly per tariff and employee.

Unified communication at the highest level.

With Nvoice for Skype for Business you will enjoy the combination of cloud telephony and the leading UC solution from Microsoft. With its intuitive interface, Skype for Business makes it easy to use features like Presence, Chat and Video Conferencing. Increase the efficiency of your communication processes and focus on your high priority tasks.

	Standard	Standard Plus	Enterprise	Enterprise Plus
Presence and chat	Yes	Yes	Yes	Yes
External telephony	No	Yes	No	Yes
Video conferencing	No	No	Yes	Yes
