

**Hello there.  
Hello everywhere.**

**CRM Connect provides easy and seamless integrations for connecting Cloudya to your CRM and your CRM system to Cloudya.**

CRM Connect links your Cloudya Web and Desktop App with over 200 CRM platforms. You'll love the way it makes your data management so easy.

### Loaded with features

- No telephone hardware or on-premise server required
- Out-of-the-box integration with over 200 CRM platforms
- Can't find your CRM on the list? No worries! We help you with an on-demand request
- Find all your contacts inside Cloudya
- Click-to-dial directly from your CRM system
- Track customer activity and access all call details in your CRM software
- Free Outlook and Apple Address Book integration for Cloudya Business Premium customers

### Boost your business

- Having all customer information at your fingertips helps you get it right first time and increases cost-efficiency
- Improved service will lead to more sales
- Scale up and down as you need
- Serving customers faster and improving internal communications will keep everyone happy

### Treat your teams

- Work's a breeze when you can see all the customer information from CRM and ERP with every call
- Fewer open apps simplifies life too
- Increase productivity with click-to-dial
- Seamless user experience and better connection with colleagues will keep your employees smiling

**Keep your customers loyal. And your team.**
