

Tired of being stuck on the ground? Take your first steps toward cloud-based communication.

The world is changing, and so are ways of communicating. But don't let this – or the ISDN shutdown – stop you from getting what you need. With Nconnect Voice, you can protect your existing infrastructure, while enjoying the ease of improved and flexible communication.

Don't be shy. We've got a lot to offer.

Aside from the perks we've already mentioned, you can benefit from:

- New ways of communicating through your existing infrastructure
- Did we mention easy? Switch network hassle-free
- A true continental experience...
Connect across Europe with one product
- All (yes all!) internal calls and calls to Cloudya are completely free of charge
- Sales and support just where you need it; locally
- Unlock the exclusive benefits of Cloud
- High-level security so you always feel protected
- 99.9% platform availability means we're always there for you
- Integrate Nconnect Voice to Microsoft Teams* and have all communication and collaboration in one place!

*Microsoft Teams is a trademark of the Microsoft group of companies
