

Your wake-up call!

Communication plays a vital role in hospitality, accommodating everything from guest bookings to room service. Nhospitality transforms guest experiences by streamlining all this communication.

With no extra hardware or software, it integrates Cloud telephony to the Property Management System (PMS) to deliver happier guests and more bookings.

Game-changing features.

- ✓ Use IVR to greet callers with a user-friendly pre-programmed menu
- ✓ Mobile integration
- ✓ Check-in and check-out room status
- ✓ Rooms extensions billing within the PMS
- ✓ Easy accounting and reporting functions
- ✓ Track minibar consumption and laundry items
- ✓ Guest-optimised voicemail system
- ✓ Hola! Set wakeup calls in eight different languages

Up your game.

PMS Integration for **fast, seamless communication** and better Trip Advisor reviews

Link your restaurant, cleaning and other departments together with **up-to-the minute guest information available** for all teams to use, all the time

Increase staff efficiency by up to 20%

While service levels go up, **resourcing costs come down**

Super-slick call routing and forwarding

Give customers a better reception with cloud-based Interactive Voice Response (IVR)

Everything from wake-up calls to laundry tracking to guest room phones

So easy to use, even temps come across like seasoned pros

Customers can contact you using **any channel** they want

Scale up or down to suit seasonal occupation

NFON Nhospitality.
Raise smiles, not costs.
